PART 1, FEBRUARY, 1976

IMMUNOLOGY: PAGE

JOHN J. MARCHALONIS AND PATRICIA SMITH: Effects of dibutyrylcyclic AMP on the *in vitro* primary response of mouse spleen cells to sheep erythrocytes - - - - - - - - - - - 1

R. J. BOOTH, J. M. RASTRICK, A. R. BELLAMY AND J. MARBROOK: Modulating effects of interferon preparations on an antibody response *in vitro* - - - - - - - - - - - - - 11

J. D. WILSON AND GAEL DALTON: Human T lymphocyte colonies in agar: a comparison with other T cell assays in healthy subjects and cancer patients - - - - - - - - - - - 27

Brief Communication:—

R. M. MARKS AND R. PENNY: Lymphokine-like activity in the serum of patients with haemopoietic malignancies - - - - - 107

PHARMACOLOGY:

R. J. HEAD AND D. A. S. PARKER: Electrolytic O-demethylation of methoxycatecholamines - - - - - - - - - - 35

Brief Communication:—

D. B. FREWIN, A. G. FRANTZ AND J. A. DOWNEY: The effect of ambient temperature on the growth hormone and prolactin response to exercise - - - - - - - - - - - - - 97

BIOLOGY:

C. S. LEE AND P. M. OUTTERIDGE: The identification and ultrastructure of macrophages from the mammary gland of the ewe - - - 43

PATHOLOGY:

BRUCE N. GRAY AND ELTON WATKINS, JR.: Isolated islet transplantation in experimental diabetes - - - - - - - - - 57

PHYSIOLOGY:

G. T. WHIPP, E. M. WINTOUR, J. P. COGHLAN AND B. A. SCOGGINS: Regulation of aldosterone in the guinea-pig—effect of oestrus cycle, pregnancy and sodium status - - - - - - - - 71

D. R. HUNT AND A. P. M. FORREST: The inhibitory influence of the pyloric antrum on gastric secretion in dogs - - - - - - 79

Brief Communication:—

N. H. STACEY AND B. G. PRIESTLY: The bicarbonate ion concentration of Krebs-Henseleit solution - - - - - - - - - - 103

MICROBIOLOGY:

NANCY ATKINSON: Streptomycin and temperature sensitivity of colicin-like activity in salmonella cultures - - - - - - 91

PART 2, APRIL, 1976

Special Article:— PAGE

A. B. Roy: Sulphatases, lysosomes and disease - - - - - - 111

Immunology:

L. M. Ching, J. B. Gavin, J. Marbrook and M. Skinner: The surface morphology and the cell cycle of mastocytoma target cells: no apparent effect on cell-mediated killing - - - - - - 137

R. W. Tindle, S. H. Neoh, M. P. Ashley, D. Hardy and Ieva Kotlarski: Resistance of mice to Krebs ascites tumour, sarcoma S180 and PC6 plasmacytoma after immunisation with *Salmonella enteritidis* 11RX - - - - - - - - - - - - 149

M. P. Ashley, S. H. Neoh, Ieva Kotlarski and D. Hardy: Local and systemic effects in the non-specific tumour resistance induced by attenuated *Salmonella enteritidis* 11RX in mice - - - - - 157

A. W. Cripps and A. K. Lascelles: The origin of immunoglobulins in salivary secretion of sheep - - - - - - - - - 191

Physiology:

W. P. Anderson and J. Ludbrook: Effects of the sympathetic nervous system and the adrenal medullary hormones on dog hind limb blood flow after haemorrhage - - - - - - - - - 169

D. R. Hunt and A. P. M. Forrest: Release of gastrin by vagal stimulation in the acid secretory response to food - - - - - 181

Peter R. Carroll and Ian R. Neering: Relationship between vasoconstriction and histamine induced vasodilation - - - - - 197

Microbiology:

Brief Communication:—

R. A. Chandler: An evaluation of selective broths based on the bi-selenite ion and on hypertonic strontium chloride in salmonellae detection in egg products - - - - - - - - 203

PART 3, JUNE, 1976

IMMUNOLOGY: PAGE

R. DAVIES AND IEVA KOTLARSKI: A role for antibody in the expression of cellular immunity to *Salmonella typhimurium* C5 - - - 207

R. DAVIES AND IEVA KOTLARSKI: The role of thymus-derived cells in immunity to Salmonella infection - - - - - - - - 221

V. CHAICUMPA, C. R. JENKIN AND D. ROWLEY: Passive transfer of immunity to infection with *Nematospiroides dubius* from immunised mice to their offspring - - - - - - - - - 245

T. PANG AND R. V. BLANDEN: The cell-mediated immune response to ectromelia virus infection. Secondary response *in vitro*: specificity, nature of effector and responder cells and requirements for induction of antigenic changes in stimulator cells - - - 253

SUSAN DORSCH AND BRUCE ROSER: The effect of antigenic strength and immunisation on the popliteal lymph node allograft response - 265

VIROLOGY:

R. L. DOHERTY, J. G. CARLEY, B. H. KAY, C. FILIPPICH AND E. N. MARKS: Murray Valley encephalitis virus infection in mosquitoes and domestic fowls in Queensland, 1974 - - - - - - 237

PHYSIOLOGY:

ANTHONY KOO, ISABELLA Y. S. LIANG AND KWOK-KEW CHENG: Intrahepatic microvascular changes in carbon tetrachloride-induced cirrhotic livers in the rat - - - - - - - - - - 277

PATHOLOGY:

ANTHONY KOO, ISABELLA Y. S. LIANG AND KWOK-KEW CHENG: Effect of the ligation of hepatic artery on the microcirculation in the cirrhotic liver in the rat - - - - - - - - - - 287

MICROBIOLOGY:

G. P. GARD, J. R. GILES, R. J. DWYER-GRAY AND GWENDOLYN M. WOODROOFE: Serological evidence of inter-epidemic infection of feral pigs in New South Wales with Murray Valley encephalitis virus - - - - - - - - - - - - - - 297

PART 4, AUGUST, 1976

IMMUNOLOGY: PAGE

MICHAEL J. CRUMPTON, JOHN J. MARCHALONIS, DIETER HAUSTEIN, JOHN L. ATWELL AND ALAN W. HARRIS: Plasma membrane of a murine T cell lymphoma: surface labelling, membrane isolation, separation of membrane proteins and distribution of surface label amongst these proteins - - - - - - - - - - 303

R. S. HOGARTH-SCOTT AND BRIAN J. FEERY: The specificity of nematode allergens in the diagnosis of human visceral larva migrans - 317

T. L. W. ROTHWELL AND C. R. HUXTABLE: Basophil leucocytes in cutaneous hypersensitivity reactions in nematode-infected guinea-pigs - - - - - - - - - - - - - - - 329

A. W. CRIPPS, W. J. FULKERSON, D. A. GRIFFITHS, G. H. MCDOWELL AND A. K. LASCELLES: The relationship between the transfer of immunoglobulins, sodium and potassium into mammary secretion of the parturient ewe - - - - - - - - - - - 337

D. C. JACKSON, G. L. ADA AND R. THA HLA: Cytotoxic T cells recognize very early, minor changes in ectromelia virus-infected target cells - - - - - - - - - - - - - - - 349

T. PANG, I. D. GARDNER AND R. V. BLANDEN: Cytotoxic T cells in the peritoneal cavity of mice infected with ectromelia virus - - 365

L. D. PEARSON, P. C. DOHERTY, A. HAPEL AND I. D. MARSHALL: The responses of the popliteal lymph node of the sheep to Ross River and Kunjin viruses - - - - - - - - - - - 371

PHYSIOLOGY:

B. V. GOODGER: Fibrinogen-like proteins and fibrinolytic proteins in a saline eluate from sucrose washed bovine erythrocytes - - 381

VALERIE BURKE, MICHAEL GRACEY, JENNIFER THOMAS AND ANNE MALAJCZUK: Inhibition of intestinal uptake of amino acids by unconjugated bile salt - - - - - - - - - - 391

PHARMACOLOGY:

B. R. FROST, D. C. GERKE AND D. B. FREWIN: The effects of 2-phenylalanine 8-lysine vasopressin (Octapressin)® on blood vessels in the rat tail - - - - - - - - - - - 403

PART 5, OCTOBER, 1976

IMMUNOLOGY: PAGE

WENDY F. DAVIDSON, TIKKY PANG, ROBERT V. BLANDEN AND PETER C. DOHERTY: "Physiological Interaction" does not explain the H-2 requirement for recognition of virus-infected cells by cytotoxic T cells - - - - - - - - - - - - - - 413

B. H. TOH, H. K. MULLER AND M. N. CAUCHI: Reaction of human smooth muscle autoantibody with foetal glial cells and their precursors - - - - - - - - - - - - - - 423

D. C. MEARS, A. G. R. SHEIL, G. E. KELLY AND P. C. BEERENFELS: Preparation and testing of goat anti-thymocyte globulin - 431

PHYSIOLOGY:

D. F. DAVEY: The relation between Z-disk lattice spacing and sarcomere length in sartorius muscle fibres from *Hyla cerulea* - 441

BIOCHEMISTRY:

R. H. SUTTON: *Eperythrozoon ovis*: The difference in carbohydrate metabolism between infected and uninfected sheep erythrocytes 449

E. G. BASSETT, J. R. BAKER, P. A. BAKER AND D. B. MYERS: Comparison of collagenase activity in eosinophil and neutrophil fractions from rat peritoneal exudates - - - - - - 459

PHARMACOLOGY:

D. C. GERKE, D. B. FREWIN AND B. R. FROST: The influence of adrenergic nerves on the response of blood vessels in the rabbit ear to 2-phenylalanine-8-lysine vasopressin (octapressin) - 467

R. G. DICKINSON, J. E. O'HAGAN, MARTINA SCHOTZ, K. C. BINNINGTON AND M. P. HEGARTY: Prostaglandin in the saliva of the cattle tick *Boophilus microplus* - - - - - - - - - 475

VIROLOGY:

P. F. S. LIEHNE, N. F. STANLEY, M. P. ALPERS AND C. G. LIEHNE: Ord River arboviruses—the study site and mosquitoes - - 487

C. G. LIEHNE, S. LEIVERS, N. F. STANLEY, M. P. ALPERS, S. PAUL, P. F. S. LIEHNE AND K. H. CHAN: Ord River arboviruses—isolations from mosquitoes - - - - - - - - - 499

C. G. LIEHNE, N. F. STANLEY, M. P. ALPERS, S. PAUL, P. F. S. LIEHNE AND K. H. CHAN: Ord River arboviruses—serological epidemiology - - - - - - - - - - - - 505

PART 6, DECEMBER, 1976

BIOCHEMISTRY — PAGE

A. WALLER AND C. C. KRATZING: Alterations in lipid metabolism produced by ethyl trichloracetate - - - - - - 513

T. G. REDGRAVE AND N. VAKAKIS: Hepatic vitamin A fat-storage cells and the metabolism of chylomicron cholesterol - - - 519

IMMUNOLOGY

J. G. AASKOV AND HONOR M. ANTHONY: Assay of human lymphokines *in vitro*. Evidence for a migration stimulation factor (MStF) which interferes with the macrophage migration inhibition assay 527

BRUCE J. ROSER: The origin and significance of macrophages in thoracic duct lymph - - - - - - - - - - 541

A. E. BRAY: Host resistance to a spontaneously metastasising melanoma after primary tumour excision - - - - - - 551

T. PANG AND R. V. BLANDEN: The role of adherent cells in the secondary cell-mediated response *in vitro* to a natural poxvirus pathogen - - - - - - - - - - - - 559

K. J. LAFFERTY, A. BOOTES, V. A. A. KILLBY AND W. BURCH: Mechanism of thyroid allograft rejection - - - - - - - 573

PHYSIOLOGY

T. T. LOH AND I. KALDOR: Studies on the transfer of plasma iron to milk in the lactating rat - - - - - - - - 537

PATHOLOGY

C. H. GALLAGHER AND VIVIENNE E. REEVE: Interrelationships of copper, cytochrome oxidase, phospholipid synthesis and adenine nucleotide binding - - - - - - - - - - 593

PHARMACOLOGY

Brief Communication:–

D. C. GERKE, B. AHRNS, D. B. FREWIN AND B. R. FROST: The effect of local anaesthetics on the neural uptake of catecholamines in isolated arteries — a histochemical study - - - - - 601

THE AUSTRALIAN JOURNAL OF EXPERIMENTAL BIOLOGY AND MEDICAL SCIENCE

VOLUME 54

SUBJECT INDEX

BIOCHEMISTRY

Cholesterol, chylomicron, hepatic vitamin A fat-storage cells and the metabolism of (Redgrave and Vakakis), 519.

Collagenase activity in eosinophil and neutrophil fractions from rat peritoneal exudates, comparison of (Bassett, Baker, Baker and Myers), 459.

Eperythrozoon ovis: the difference in carbohydrate metabolism between infected and uninfected sheep erythrocytes (Sutton), 449.

Ethyl trichloracetate, alterations in lipid metabolism produced by (Waller and Kratzing), 513.

Hepatic vitamin A fat-storage cells and the metabolism of chylomicron cholesterol (Redgrave and Vakakis), 519.

Lipid metabolism, alterations in, produced by ethyl trichloracetate (Waller and Kratzing), 513.

Sulphatases, lysosomes and disease (Roy), 111.

BIOLOGY

Macrophages from the mammary gland of the ewe, the identification and ultrastructure of (Lee and Outteridge), 43.

IMMUNOLOGY

Adherent cells, the role of, in the secondary cell-mediated response *in vitro* to a natural poxvirus pathogen (Pang and Blanden), 559.

Allograft response, popliteal lymph node, the effect of antigenic strength and immunisation on the (Dorsch and Roser), 265.

AMP, dibutyrylcyclic, *see* Dibutyrylcyclic AMP.

Antibody, a role for, in the expression of cellular immunity to *Salmonella typhimurium* C5 (Davies and Kotlarski), 207.

Antibody response *in vitro*, modulating effects of interferon preparations on an (Booth, Rastrick, Bellamy and Marbrook), 11.

Antigenic strength and immunisation, the effect of, on the popliteal lymph node allograft response (Dorsch and Roser), 265.

Anti-thymocyte globulin, goat, preparation and testing of (Mears, Sheil, Kelly and Beerenfels), 431.

Autoantibody, smooth muscle, *see* Smooth muscle autoantibody.

Basophil leucocytes in cutaneous hypersensitivity reactions in nematode-infected guinea-pigs (Rothwell and Huxtable), 329.

Cell cycle of mastocytoma target cells, the surface morphology and the: no apparent effect on cell-mediated killing (Ching, Gavin, Marbrook and Skinner), 137.

Cell-mediated immune response to ectromelia virus infection. Secondary response *in vitro*: specificity, nature of effector and responder cells and requirements for induction of antigenic changes in stimulator cells (Pang and Blanden), 253.

Cell-mediated response, secondary, *in vitro*, to a natural poxvirus pathogen, the role of adherent cells in the (Pang and Blanden), 559.

Cellular immunity, *see* Immunity, cellular.

Cutaneous hypersensitivity reactions in nematode-infected guinea-pigs, basophil leucocytes in (Rothwell and Huxtable), 329.

Cytotoxic T cells, *see* T cells, cytotoxic.

Dibutyrylcyclic AMP, effects of, on the *in vitro* primary response of mouse spleen cells to sheep erythrocytes (Marchalonis and Smith), 1.

Ectromelia virus, cytotoxic T cells in the peritoneal cavity of mice infected with (Pang, Gardner and Blanden), 365.

Ectromelia virus infection, the cell-mediated immune response to. Secondary response *in vitro*: specificity, nature of effector and responder cells and requirements for induction of antigenic changes in stimulator cells (Pang and Blanden), 253.

Glial cells, foetal, and their precursors, reaction of human smooth muscle autoantibody with (Toh, Muller and Cauchi), 423.

Haemopoietic malignancies, lymphokine-like activity in the serum of patients with (Marks and Penny), 107.

Host resistance to a spontaneously metastasising melanoma after primary tumour excision (Bray), 551.

Immunity, cellular, to *Salmonella typhimurium* C5, a role for antibody in the expression of (Davies and Kotlarski), 207.

Immunity to infection with *Nematospiroides dubius*, passive transfer of, from immunised mice to their offspring (Chaicumpa, Jenkin and Rowley), 245.

Immunity to Salmonella infection, the role of thymus-derived cells in (Davies and Kotlarski), 221.

Immunoglobulins, sodium and potassium, the relationship between the transfer of, into mammary secretion of the parturient ewe (Cripps, Fulkerson, Griffiths, McDowell and Lascelles), 337.

Immunoglobulins, the origin of, in salivary secretion of sheep (Cripps and Lascelles), 191.

Interferon preparations, modulating effects of, on an antibody response *in vitro* (Booth, Rastrick, Bellamy and Marbrook), 11.

Krebs ascites tumour, sarcoma S180 and PC6 plasmacytoma, resistance of mice to, after immunisation with *Salmonella enteritidis* 11RX (Tindle, Neoh, Ashley, Hardy and Kotlarski), 149.

Larva migrans, human visceral, the specificity of nematode allergens in the diagnosis of (Hogarth-Scott and Feery), 317.

Lymph node, popliteal, of the sheep, the responses of the, to Ross River and Kunjin viruses (Pearson, Doherty, Hapel and Marshall), 371.

Lymphocyte colonies, human T, in agar: a comparison with other T cell assays in healthy subjects and cancer patients (Wilson and Dalton), 27.

Lymphokine-like activity in the serum of patients with haemopoietic malignancies (Marks and Penny), 107.

Lymphokines, human, assay of, *in vitro*. Evidence for a migration stimulation factor (MStF) which interferes with the macrophage migration inhibition assay (Aaskov and Anthony), 527.

Lymphoma, murine T cell, plasma membrane of a: surface labelling, membrane isolation, separation of membrane proteins and distribution of surface label amongst these proteins (Crumpton, Marchalonis, Haustein, Atwell and Harris), 303.

Macrophages in thoracic duct lymph, the origin and significance of (Roser), 541.

Malignancies, haemopoietic, *see* Haemopoietic malignancies.

Mammary secretion of the parturient ewe, the relationship between the transfer of immunoglobulins, sodium and potassium into (Cripps, Fulkerson, Griffiths, McDowell and Lascelles), 337.

Mastocytoma target cells, the surface morphology and the cell cycle of: no apparent effect on cell-mediated killing (Ching, Gavin, Marbrook and Skinner), 137.

Membrane, plasma, *see* Plasma membrane.

Migration stimulation factor (MStF) which interferes with the macrophage migration inhibition assay, evidence for a. Assay of human lymphokines *in vitro* (Aaskov and Anthony), 527.

Nematode allergens, the specificity of, in the diagnosis of human visceral larva migrans (Hogarth-Scott and Feery), 317.

Nematode-infected guinea-pigs, basophil leucocytes in cutaneous hypersensitivity reactions in (Rothwell and Huxtable), 329.

Nematospiroides dubius, passive transfer of immunity to infection with, from immunised mice to their offspring (Chaicumpa, Jenkin and Rowley), 245.

"Physiological interaction" does not explain the H-2 requirement for recognition of virus-infected cells by cytotoxic T cells (Davidson, Pang, Blanden and Doherty), 413.

Plasma membrane of a murine T cell lymphoma: surface labelling, membrane isolation, separation of membrane proteins and distribution of surface label amongst these proteins (Crumpton, Marchalonis, Haustein, Atwell and Harris), 303.

Primary response, *see* Response, primary.

Proteins, membrane, separation of, surface labelling, membrane isolation and distribution of surface label amongst these proteins: plasma membrane of a murine T cell lymphoma (Crumpton, Marchalonis, Haustein, Atwell and Harris), 303.

Response, primary, *in vitro*, of mouse spleen cells to sheep erythrocytes, effect of dibutyrylcyclic AMP on the (Marchalonis and Smith), 1.

Ross River and Kunjin viruses, the response of the popliteal lymph node of the sheep to (Pearson, Doherty, Hapel and Marshall), 371.

Salivary secretion of sheep, the origin of immunoglobulins in (Cripps and Lascelles), 191.

Salmonella enteritidis 11RX, attenuated, in mice, local and systemic effects in the non-specific tumour resistance induced by (Ashley, Neoh, Kotlarski and Hardy), 157.

Salmonella enteritidis 11RX, resistance of mice to Krebs ascites tumour, sarcoma S180 and PC6 plasmacytoma after immunisation with (Tindle, Neoh, Ashley, Hardy and Kotlarski), 149.

Salmonella infection, the role of thymus-derived cells in immunity to (Davies and Kotlarski), 221.

Salmonella typhimurium C5, a role for antibody in the expression of cellular immunity to (Davies and Kotlarski), 207.

Secondary cell-mediated response, *see* Cell-mediated response, secondary.

Sheep, the origin of immunoglobulins in salivary secretion of (Cripps and Lascelles), 191.

Smooth muscle autoantibody, human, reaction of, with foetal glial cells and their precursors (Toh, Muller and Cauchi), 423.

Sodium and potassium, immunoglobulins, the relationship between the transfer of, into mammary secretion of the parturient ewe (Cripps, Fulkerson, Griffiths, McDowell and Lascelles), 337.

T cells, cytotoxic, in the peritoneal cavity of mice infected with ectromelia virus (Pang, Gardner and Blanden), 365.

T cells, cytotoxic, "physiological interaction" does not explain the H-2 requirement for recognition of virus-infected cells by (Davidson, Pang, Blanden and Doherty), 413.

T cells, cytotoxic, recognize very early, minor changes in ectromelia virus-infected target cells (Jackson, Ada and Tha Hla), 349.

T lymphocyte colonies, human, *see* Lymphocyte colonies, human T.

Thoracic duct lymph, the origin and significance of macrophages in (Roser), 541.

Thymus-derived cells, the role of, in immunity to Salmonella infection (Davies and Kotlarski), 221.

Thyroid allograft rejection, mechanism of (Lafferty, Bootes, Killby and Burch), 573.

Tumour excision, primary, host resistance to a spontaneously metastasising melanoma after (Bray), 551.

Tumour, Krebs ascites, *see* Krebs ascites tumour.

Tumour resistance, non-specific, local and systemic effects in the, induced by attenuated *Salmonella enteritidis* 11RX in mice (Ashley, Neoh, Kotlarski and Hardy), 157.

Virus-infected cells, "physiological interaction" does not explain the H-2 requirement for recognition of, by cytotoxic T cells (Davidson, Pang, Blanden and Doherty), 413.

Virus-infected target cells, ectromelia, cytotoxic T cells recognize very early, minor changes in (Jackson, Ada and Tha Hla), 349.

Viruses, Ross River, *see* Ross River viruses.

MICROBIOLOGY

Colicin-like activity in Salmonella cultures, streptomycin and temperature sensitivity of (Atkinson), 91.

Egg products, salmonellae detection in, an evaluation of selective broths based on the bi-selenite ion and on hypertonic strontium chloride in (Chandler), 203 .

Encephalitis, Murray Valley, *see* Murray Valley encephalitis.

Murray Valley encephalitis virus, serological evidence of inter-epidemic infection of feral pigs in New South Wales with (Gard, Giles, Dwyer-Gray and Woodroofe), 297.

Salmonella cultures, streptomycin and temperature sensitivity of colicin-like activity in (Atkinson), 91.

Salmonellae detection in egg products, an evaluation of selective broths based on the bi-selenite ion and on hypertonic strontium chloride in (Chandler), 203.

PATHOLOGY

Cirrhotic liver in the rat, effect of the ligation of hepatic artery on the microcirculation in the (Koo, Liang and Cheng), 287.

Copper, cytochrome oxidase, phospholipid synthesis and adenine nucleotide binding, interrelationships of (Gallagher and Reeve), 593.

Diabetes, experimental, isolated islet transplantation in (Gray and Watkins), 57.

Hepatic artery, effect of the ligation of, on the microcirculation in the cirrhotic liver in the rat (Koo, Liang and Cheng), 287.

Islet transplantation, isolated, in experimental diabetes (Gray and Watkins), 57.

Microcirculation in the cirrhotic liver in the rat, effect of the ligation of hepatic artery on (Koo, Liang and Cheng), 287.

Phospholipid synthesis and adenine nucleotide binding, copper, cytochrome oxidase, interrelationships of (Gallagher and Reeve), 593.

PHARMACOLOGY

Adrenergic nerves, the influence of, on the response of blood vessels in the rabbit ear to 2-phenylalanine-8-lysine vasopressin (Octapressin) (Gerke, Frewin and Frost), 467.

Anaesthetics, local, the effect of, on the neural uptake of catecholamines in isolated arteries —a histochemical study (Gerke, Ahrns, Frewin and Frost), 601.

Blood vessels in the rabbit ear, the influence of adrenergic nerves on the response of, to 2-phenylalanine-8-lysine vasopressin (Octapressin) (Gerke, Frewin and Frost), 467.

Blood vessels in the rat tail, the effect of 2-phenylalanine-8-lysine vasopressin (Octapressin) on (Frost, Gerke and Frewin), 403.

Boophilus microplus, *see* Cattle tick.

Catecholamines in isolated arteries, the effect of local anaesthetics on the neural uptake of —a histochemical study (Gerke, Ahrns, Frewin and Frost), 601.

Cattle tick, *Boophilus microplus*, prostaglandin in the saliva of the (Dickinson, O'Hagan, Schotz, Binnington and Hegarty), 475.

Electrolytic O-demethylation of methoxycatecholamines (Head and Parker), 35.

Exercise, the effect of ambient temperature on the growth hormone and prolactin response to (Frewin, Frantz and Downey), 97.

Growth hormone and prolactin response to exercise, the effect of ambient temperature on the (Frewin, Frantz and Downey), 97.

Methoxycatecholamines, electrolytic O-demethylation of (Head and Parker), 35.

Octapressin, 2-phenylalanine-8-lysine vasopressin, the effects of, on blood vessels in the rat tail (Frost, Gerke and Frewin), 403.

Octapressin, 2-phenylalanine-8-lysine vasopressin, the influence of adrenergic nerves on the response of blood vessels in the rabbit ear to (Gerke, Frewin and Frost), 467.

2-Phenylalanine-8-lysine vasopressin, *see* Octapressin.

Prostaglandin in the saliva of the cattle tick *Boophilus microplus* (Dickinson, O'Hagan, Schotz, Binnington and Hegarty), 475.

Temperature, ambient, the effect of, on the growth hormone and prolactin response to exercise (Frewin, Frantz and Downey), 97.

PHYSIOLOGY

Aldosterone in the guinea-pig, regulation of—effect of oestrus cycle, pregnancy and sodium status (Whipp, Wintour, Coghlan and Scoggins), 71.

Amino acids, inhibition of intestinal uptake of, by unconjugated bile salt (Burke, Gracey, Thomas and Malajczuk), 391.

Bicarbonate ion concentration of Krebs-Henseleit solution (Stacey and Priestly), 103.

Bile salt, unconjugated, inhibition of intestinal uptake of amino acids by (Burke, Gracey, Thomas and Malajczuk), 391.

Blood flow, dog hind limb, after haemorrhage, effects of the sympathetic nervous system and the adrenal medullary hormones on (Anderson and Ludbrook), 169.

Cirrhotic livers, carbon-tetrachloride-induced, in the rat, intrahepatic microvascular changes in (Koo, Liang and Cheng), 277.

Erythrocytes, sucrose washed bovine, fibrinogen-like proteins and fibrinolytic proteins in a saline eluate from (Goodger), 381.

Fibrinogen-like proteins and fibrinolytic proteins in a saline eluate from sucrose washed bovine erythrocytes (Goodger), 381.

Food, the acid secretory response to, release of gastrin by vagal stimulation in (Hunt and Forrest), 181.

Gastrin, release of, by vagal stimulation in the acid secretory response to food (Hunt and Forrest), 181.

Gastric secretion in dogs, the inhibitory influence of the pyloric antrum on (Hunt and Forrest), 79.

Guinea-pig, regulation of aldosterone in the—effect of oestrus cycle, pregnancy and sodium status (Whipp, Wintour, Coghlan and Scoggins), 71.

Haemorrhage, effects of the sympathetic nervous system and the adrenal medullary hormones on dog hind limb blood flow after (Anderson and Ludbrook), 169.

Histamine induced vasodilation, and vasoconstriction, relationship between (Carroll and Neering), 197.

Iron, plasma, studies on the transfer of, to milk in the lactating rat (Loh and Kaldor), 587.

Krebs-Henseleit solution, the bicarbonate ion concentration of (Stacey and Priestly), 103.

Livers, cirrhotic, *see* Cirrhotic livers.

Microvascular changes, intra-hepatic, in carbon tetrachloride-induced cirrhotic livers in the rat (Koo, Liang and Cheng), 277.

Milk in the lactating rat, studies on the transfer of plasma iron to (Loh and Kaldor), 587.

Muscle fibres, sartorius, from *Hyla cerulea*, the relation between Z-disk lattice spacing and sarcomere length in (Davey), 441.

Proteins, fibrinogen-like, *see* Fibrinogen-like proteins.

Pyloric antrum, the inhibitory influence of the, on gastric secretion in dogs (Hunt and Forrest), 79.

Sarcomere length, the relation between Z-disk lattice spacing and, in sartorius muscle fibres from *Hyla cerulea* (Davey), 441.

Sympathetic nervous system and the adrenal medullary hormones, effects of the, on dog hind limb blood flow after haemorrhage (Anderson and Ludbrook), 169.

Vasoconstriction and histamine induced vasodilation, relationship between (Carroll and Neering), 197.

Z-disk lattice spacing and sarcomere length, the relation between, in sartorius muscle fibres from *Hyla cerulea* (Davey), 441.

VIROLOGY

Arboviruses, Ord River, *see* Ord River arboviruses.

Encephalitis, Murray Valley, *see* Murray Valley encephalitis.

Murray Valley encephalitis virus infection in mosquitoes and domestic fowls in Queensland, 1974 (Doherty, Carley, Kay, Filippich and Marks), 237.

Ord River arboviruses—isolations from mosquitoes (Liehne, Leivers, Stanley, Alpers, Paul, Liehne and Chan), 499.

Ord River arboviruses—serological epidemiology (Liehne, Stanley, Alpers, Paul, Liehne and Chan), 505.

Ord River arboviruses—the study site and mosquitoes (Liehne, Stanley, Alpers and Liehne), 487.
